Aficionados of the anatomical sciences, surgeons and physicians alike, should delight in this volume. I shall

not dwell on the inadequacies of most neuroanatomy textbooks, whose precise but arid approach to a difficult topic has scared many a medical student away from the clinical neurosciences.

Anatomic Basis of Neurologic Diagnosis - The JAMA Network

Early Neural Development. Formation of the nervous system begins during the third week of gestation, when the neural plate develops from a thickening of the embryonic ectoderm. A longitudinal neural groove, bounded by two neural folds, forms along the midline of the plate. Fusion of the neural folds, which meet along the midline,...
