Using Your Mission to Create a Dynamic Board

We propose a research agenda that can assist in developing a dynamic and comprehensive theory of boards of directors. It is based upon the concept of temporality, with time being organised around the life-cycle metaphor, and integrates research on agency theory, decision-making theory and resource dependence theory.

Towards a dynamic theory of boards: An organisational life

By being flexible and dynamic, embracing self-scrutiny, and acting on the findings, boards can do more and do it better. About the author(s) Paul Jansen is a director and Andrea Kilpatrick is a consultant in McKinsey&€™s San Francisco office.

The dynamic nonprofit board | McKinsey

to the people we spoke with, good boards are dynamic, particularly adept at understanding the external and internal context of the nonprofit and at shifting focus to respond to or anticipate changes in the environment. As a result, strong boards develop an independent view that helps shape the organization&€™s agenda
