EPA regulations for the oil and natural gas industry help combat climate change and reduce air pollution that harms public health. EPA's regulations apply to oil production, and the production, process, transmission and storage of natural gas.

### **Controlling Air Pollution from the Oil and Natural Gas**

Natural gas is a naturally occurring hydrocarbon gas mixture consisting primarily of methane, but commonly including varying amounts of other higher alkanes, and sometimes a small percentage of carbon dioxide, nitrogen, hydrogen sulfide, or helium. It is formed when layers of decomposing plant and animal matter are exposed to intense heat and pressure under the surface of the Earth over ...
