

intermarket analysis and investing pdf

In finance, technical analysis is an analysis methodology for forecasting the direction of prices through the study of past market data, primarily price and volume. Behavioral economics and quantitative analysis use many of the same tools of technical analysis, which, being an aspect of active management, stands in contradiction to much of modern portfolio theory.

Risk Management is bar-none the MOST important aspect of any system. The Volta Strategy places HARD stops on ALL of its trades, ranging from 5 to 10 pips, in cases where the aim is to become instantly profitable, and from 20 to 30 pips in cases where trades are entered using a larger take profit expectancy.

Over-the-counter (OTC) or off-exchange trading is done directly between two parties, without the supervision of an exchange. It is contrasted with exchange trading, which occurs via exchanges. A stock exchange has the benefit of facilitating liquidity, providing transparency, and maintaining the current market price. In an OTC trade, the price is not necessarily published for the public.
