3. High Yield Notes: Less known are the Goljan High Yield Pathology Notes. The format that is available on the internet is not ideal, but I do think that these notes can be very useful. The document is a very rapid review of the pathology associations that are most common and most important to Steps 1 and 2.

Deep learning algorithms, in particular convolutional networks, have rapidly become a methodology of choice for analyzing medical images. This paper reviews the major deep learning concepts pertinent to medical image analysis and summarizes over 300 contributions to the field, most of which appeared in the last year.

A survey on deep learning in medical image analysis

One of the most challenging scientific steps of the modern era has been the ability to replace, functionally or anatomically, the failing heart, and in December 2017 we celebrated the 50th anniversary of the world's first human heart transplant.
