

### **posing for portrait photography pdf**

Portrait photography or portraiture in photography is a photograph of a person or group of people that captures the personality of the subject by using effective lighting, backdrops, and poses. A portrait picture might be artistic, or it might be clinical, as part of a medical study. Frequently, portraits are commissioned for special occasions, such as weddings or school events.

Previously in the posing guide series articles we looked at posing female subjects, posing male subjects, posing children and posing couples. It is now time for posing groups of people. There are usually three kinds of group shots. First are just formal shots with a large number of people. Second are more informal shots with
